NOVURANIA

*It is not just about building and designing
boats, it is what we love to do*

Our passion for detail and sophisticated Italian design has been our secret since the 1960s.

To meet the needs of our clients, in the 1990s our inhouse production was moved from Italy to Florida, one of the most developed marine areas in the world.

Today, Novurania continues to lead the market. Our heritage and innovation guarantee the production of exceptionally beautiful as well as high-quality boats and luxury yacht tenders.

A know-how passed on for more than half a century

Since the beginning, we controlled the main phases of the value chain to guarantee excellence and high quality.

We manufacture our own inflatable tube fabric, coated with neoprene CR on the inside and with Hypalon CSM on the outside, ensuring our vessels durability in strength as well as time.

We are revolutionizing the industry by producing the highest performance line of inflatable boats. We place equal care on the exterior appearance and on the internal technical engineering.

Vertically integrated value chain

Direct control of various stages of production.

In-house engineering & design

Direct contact with the client.

Custom lifting points, garage fitting adaptations, and other technical requirements as needed.

Customization

Great degree of personalization (custom layouts, styles, colors, accessories, etc.).
